

## **What's New in ADMS-Roads 3.1.2?**

**Supplemental document for ADMS-Roads Extra**

**27<sup>th</sup> September 2011**

In addition to the improvements described in the main “What’s New in ADMS-Roads 3.1?” document the following new features are available in ADMS-Roads Extra 3.1.

1. An improvement has been made so that the model will run correctly when short term output, long term output, buildings and chemistry are modelled together.
